ORGANISATION CHART OF NOTUS GENERAL SUPPLY & TRADING COMPANY LTD

VISION

We strive to provide direct benefit to all clients through competitive pricing, scalable capabilities, and building quality partnerships. We intend on building our history of success so that Notus may be a catalyst to a sustainable economy in Tanzania for many decades to come.

MISSION

We maintain technical expertise, professionalism, and financial capacity to succeed on the largest and deemed most mission-critical requirements of help our Customers build a reliable, secure, manageable and flexible procurement supply and logistic Infrastructure which establishes a foundation for Clients to meet their business objectives In strict compliance with the Tanzania laws

VALUES

We are committed to provide a source of economic progression for Tanzania by focusing on hiring, training, and development of our Tanzanian workforce while embracing the Tanzanian laws and other development polices. This company upholds such values as a guideline to its operation and business transactions:

1. Commitment
2. Customer Value
3. Teamwork
4. Professionalism
5. Flexibility / Adaptability
6. Social Responsibility

OBJECTIVE

Our objectives are to assist clients with various implementations of their projects, and we have confidence in our ability to generate the consensus and commitments necessary to succeed. We are prepared to stand behind our recommendations and to assist our clients with obtaining appropriate approvals to proceed.

GROWTH STRATEGY

We are committed to equal opportunity and diversity, which is clearly visible throughout our workforce. We are dedicated to building the necessary foundation for a sustainable future.

QUALITY POLICY

Our Company Quality Policy states:

- We will be market orientated and quality driven and manage as such.
- The policy in the organization shall be specifically developed to ensure that all process steps are efficient, transparent, logic in sequence and as a whole form a coherent overall business process in which errors and misunderstanding are minimized and which results in products and services meeting the defined criteria.
- Criteria' cover:
 - Efficient procedures in which one's (department) output meets the next person's (department) input within a set time frame.
 - An open and transparent business culture in which colleagues have confidence in the quality objectives and strategies as set by management and can hold each other accountable for the tasks and responsibilities assigned to them.
 - Customer demands expressed to us with respect to our services, delivery terms, communication, price and shelf life in so far reasonable, our policy is to deliver our services within 7 days in the regions and same day in the city unless otherwise full information has been provided to the client and the client has agreed otherwise.
 - Criteria need to be defined unambiguously as far as possible and compliance ('meeting the criteria') must be supported by objective analysis.
 - A Quality policy furthermore implies that all employees are encouraged to recognize and identify threats to or opportunities for the organization. Employees are encouraged to propose measures to achieve improvements with regards to efficiency, productivity, customer satisfaction.
 - Furthermore, these proposals should be easily reportable to management for discussion and implementation.
 - Our company's Quality Policy shall be formalized in the documents of the Quality Management system, published in English and kept up to date in our offices.
 - The manual provides general sections, multi-departmental procedures, specific work instructions and data forms must be known to all employees of certain levels in the organization.

ENVIRONMENTAL HEALTH AND SAFETY POLICY

NOTUS's Environmental Health and Safety Policy is based on the principle that 'excellence in these areas maximizes the long term value, which brings to its employees, communities, customers, shareholders and the environment.

Therefore it is our duty to ensure that consignments, raw materials, wastes, machinery and vehicles are handled without unacceptable risk to the environment, health and safety.

This policy is implemented in our culture, strategies, and operation.

Policy

- We comply with all legal requirements and voluntary commitments established to protect the environment.
- We maintain proper records and documentations concerning activities relating to environmental health and safety matters.
- We will respond positively to any expression of public concern or inquiry and investigate full any substantive complaints.
- We will participate with government, industry, and professional institutions and associations in the development of environmental health and safety regulations, reasonable environmental standards and improved environmental control technology.
- We will promote an awareness of environmental health and safety protection with the operations among all employees and provide appropriate training to those responsible for implementing environmental health and safety control measures and for those whose particular areas have the potential to cause environmental heath damage.
- We have a policy to comply with environmental friendly products through purchasing of products that serve several functions (e.g. fax, printer, scanner and copier) that reduce the overall number of products purchased. It also encourages the use recycled products such as papers, and proper use of our resources.

PROCUREMENT

NOTUS delivers a comprehensive approach to procurement that can enhance growth by providing goods and services efficiently and effectively. We work closely with our clients to deliver and sustain cost improvements, improve cross functional Collaboration, develop new capabilities and more streamlined processes, and build Stronger and more productive supply relationship.

LOGISTICS

NOTUS provides efficient, economic, and timely transportation services to challenging locations. Our logistics team brings unparalleled leadership and experience to developing proven supply chain solutions, ensuring that our clients receive what is promised, when it is promised, in a timely and well-executed manner.

PROFESSIONAL SERVICES

NOTUS provides a critical link between professional knowledge and client's operations. We combine our industry knowledge, expertise and best practice with our clients' needs to design and develop strategies which align our clients' business strategy, business processes and technology architecture with their business requirements. We recognize that the people dimension of business is the key to any successful business solution.

As a professional service provider we also realize the importance of continuous learning and education. Thus our professional team includes graduates from PSPTB, NBAA, ACCA, TIOB, Tanzania Law School, ERB and AQRB.
